

Please read aloud in this meeting.

This is the worst project to spend money on. If you support Gov Browns proposal you will be just as silly as he is. Why not lay pipe in the P. Canal and cover it with dirt! That would stop evaporation, dumping of cars and other litter that accumulate in the canal. Probably would be a lot cheaper, too. Man has continuously ruined the environment and ya'll are just going to keep ruining it!! Pull your heads out of the vapor clouds you're living in and vote against this travesty!!!

Restore, don't Destroy the Delta
